“The EU Banking Union and its implications on the non-EU Countries”

14 September 2015
Central Bank of Bosnia Herzegovina

The workshop “The EU banking union and its implications on the non-EU countries” will take place on 14 September 2015 at the Central Bank of Bosnia Herzegovina. The workshop is organized in cooperation with the School of Economics and Business Sarajevo and UniCredit Bank Bosnia & Herzegovina.

The keynote speakers were Franco Bruni (Professor at Bocconi University of Milan and Chairman of the UniCredit & Universities Scientific Committee) and Peter Nicoll (the first Governor of CBBH and central banking consultant). A round table concluded the workshop. The panelists were, in addition to the speakers, Željko Šain (Dean of School of Economics and Business Sarajevo) and Gordan Pehar (member of UniCredit Bank Management Board).

The final goal of the workshop was to consolidate the cooperation and foster the development of joint research projects among the Foundation, the academia and the central banks of the main countries in which UniCredit operates.
